

MEASURE UP.

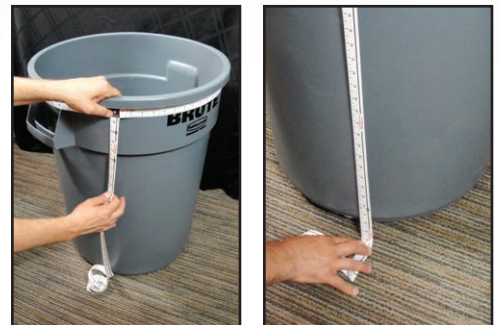

HERITAGE TAPE MEASURE

- ▶ Identify the gallon size of all cans in the industry.

INSTRUCTIONS:

1. Starting at the beginning of the tape, wrap the tape measure around the top of the waste receptacle just below the lip of the receptacle.
2. Extend the rest of the tape measure straight down the side of the receptacle.
3. The bottom of the receptacle will fall within markers on the tape measure that specify the size of the receptacle.
4. Use your QuickPick brochure to select the liner size accordingly!
