

NIST

National Institute of Standards and Technology
Technology Administration, U.S. Department of Commerce

NIST is an agency of the United States Department of Commerce that has specific requirements for labels on products, including can liners. Nearly all states adhere to NIST standards weights and measures.

There are 5 basic standards required by NIST:

Z7660XN R01				
Actual size —	38x60 in. (O.D.)			
Actual Gauge —	17 Mic. Natural			
Actual Capacity —	60 Gallon			
Actual Count —	10 / 20 Case Pack			
	<table border="1"><tr><td>Performance Standard in Lbs.</td></tr><tr><td>Dry Load</td></tr><tr><td>75</td></tr></table>	Performance Standard in Lbs.	Dry Load	75
Performance Standard in Lbs.				
Dry Load				
75				
	20.1 lb/cs (net) — Actual Net Weight (of poly)			
				

Listed terms such as “Equivalent To”, “EQ” and “Nominal” are not accepted as a product specification.

Benefits of meeting NIST requirements:

- ▶ Prevent deceptive business practices
- ▶ Promote fair and open competition between manufacturers of products
- ▶ Provide end users/buyers with accurate information for purchasing decisions

Ask us about your current labels!

Heritage Bag Company is a strong advocate of NIST standards.
ALL of our products have labels meeting NIST requirements.
